

EMBP Forum

Title : First Principles and EMBP Treatment for Neuropsychiatric Disorders

Speaker : Yi Jin, M.D.

Subjects :

- 1) Physical properties of the brain,
- 2) Fundamental principles of physics related to the brain,
- 3) Neural survival strategy in symmetry formation and energy conservation,
- 4) Hypothesis of neural information encoding,
- 5) EEG measures of bi-stable state in the brain,
- 6) EMBP- a stochastic resonant therapy to normalize the brain default state,
- 7) Clinical studies.
